# CONTENTS

## NO. 1. AUGUST

ROBERT CHAMBERS. New apparatus and methods for the dissection and injection of living cells. Five figures ..... 1
CARL HARTMAN AND CHESTER H. HEUSER. A black background for photographing objects in a liquid medium. One plate (seven figures) ..... 21
ETHEL LOUISE ANDERSON. The development of the pharyngeal derivatives in the calf (Bos taurus). One plate (five figures) ..... 25

## NO. 2. SEPTEMBER

ALFRED S. ROMER. The comparison of mammalian and reptilian coracoids. One figure. 39
W. E. SULLIVAN. The function of articular discs. Two figures ..... 49
PAUL N. JOHNSTONE, FRANK H. WAKEFIELD, AND HIRAM M. CURREY. On the comparative vascularity of heart muscle and of the Purkinje fibers. Two figures ..... 55
CLAUDE S. BECK. The relative distribution of clasmatocytes in the various organs of the seven-day-chick embryo ..... 61
F. A. MCJUNKIN. Peroxydase staining with benzidin in paraffin sections of human tissue. Sixth report of studies on the mononuclear leukocytes of the blood. Four figures .... 67
A. L. SALAZAR. Sur la forme de dégénérescence des follicules anovulaires de Regaud et d'autres reliquats provenant des cordons ovigenes de l'ovaire de la lapine. Six figures. 79
CHARLES ELBERT BUELL, JR. Notes on technique. I. A method of preparing whole mounts of early embryos. II. Dissection in paraffin ..... 85

## NO. 3. OCTOBER

EBEN J. CAREY. Studies in the dynamics of histogenesis. Intermittent traction and contraction of differential growth, as a stimulus to myogensis. XI. The dynamics of the pectoralis major tendon. Six figures ..... 89
EDWARD F. MALONE. Sharpening microtome knives. Five figures ..... 97
CHARLES C. MACKLIN. A note on the elastic membrane of the bronchial tree of mammals, with an interpretation of its functional significance ..... 119
ELIOT R. CLARK AND ELEANOR LINTON CLARK. The reaction of living cells in the tadpole's tail toward starch, agar-agar, gelatin, and gum arabic. Six figures ..... 137
ROBERT H. BOWEN. On the idiosome, Golgi apparatus, and acrosome in the male germ cells. Three figures ..... 159

## NO. 4. NOVEMBER

ELIOT R. CLARK. Reactions of experimentally isolated lymphatic capillaries in the tails of amphibian larvae. Ten figures ..... 181
ALBERT KUNTZ. On the occurrence of reflex arcs in the myenteric and submucous plexuses. Nine figures. ..... 193
EDWARD A. BOYDEN. The early development of the cloaca in ostrich embryos, with special reference to the reduction of the caudal intestine. One plate (eight figures) ..... 211
PAUL N. JOHNSTONE AND FRANK H. WAKEFIELD. On the character of the Purkinje fibers in various regions of the atrioventricular bundle. Six figures ..... 223
JOHN STEPHENS LATTA. The interpretation of the so-called germinal centers in the lymphatic tissue of the spleen. Three figures ..... 233
HAROLD SELLERS COLTON. The anatomy of a five-legged frog. Four figures ..... 247
SANTE NACCARATI. On the relation between the weight of the internal secretory glands and the body weight and brain weight ..... 255

## NO. 5. DECEMBER

T. WINGATE TODD. Numerical significance in the thoracicolumbar vertebrae of the mammalia ..... 261
G. S. DODDS. The area of the chorionic villi in the full-term placenta. Three figures .... 287
ALICE L. BROWN. A simple apparatus for delicate injections. One figure ..... 295
MORIE F. WEYMANN. The beginning and development of function in the suprarenal medulla of pig embryos. Four figures ..... 299
H. B. GOODRICH AND J. A. SCOTT. The effect of light on tissue cultures. One figure .... 315
ALDEN B. DAWSON. The origin and occurrence of the single umbilical artery in normal and abnormal human fetuses. Nine figures ..... 321

## NO. 6. JANUARY

Proceedings of the American Society of Zoologists, Twentieth Session:
Business Meeting ..... 345
Program ..... 358
List of titles ..... 359
Exhibits ..... 367
Abstracts ..... 369
Constitution, By-laws, Historical ..... 429
Officers and List of Members ..... 437
